

Packaging and mass design solutions.

In an increasingly complex world, choosing the right partners makes all the difference. Finding the right specialists to help you achieve your goals through their commitment, experience and instinctive feel for your industry is vital.

As a contract manufacturer, we make no compromise in our approach to manufacturing and packaging, an approach underpinned by our expertise and strong client focus. Backed by over 60 years of experience, we offer in-depth know-how in implementing mass-designed solutions for the development, manufacturing and packaging of products. You can count on us to rise to your needs.

Completely in the service of your product.

COSMINA AG

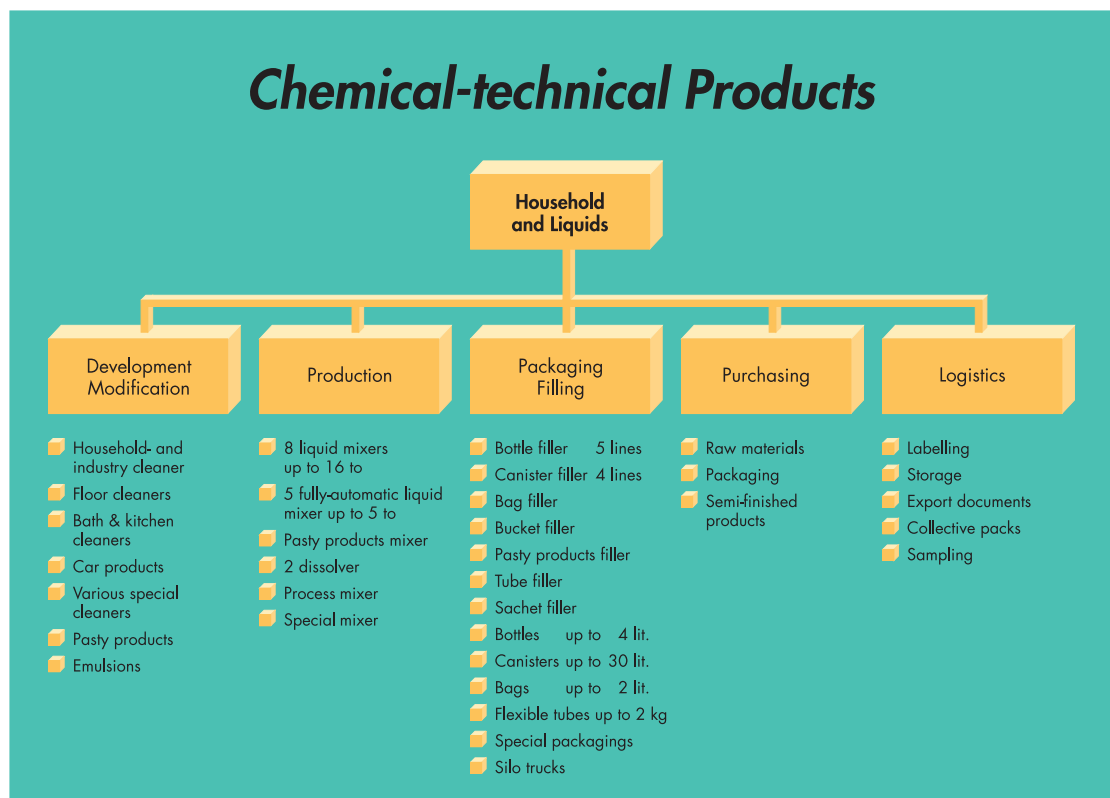

Business unit: Industry- & Householdcleaners

www.cosmina.ch

Outsourcing: Chemical-technical products.

We place our longstanding experience at your disposal in two areas. First, we can assist you in developing new ideas or product formulations, helping you to implement innovative solutions.

Second, we can look after the bottling and packaging of existing products. We work with all types of cans, bottles, canisters and containers across a full range of materials and sizes. In each case, we work to **ISO 9001** standards and deliver market-ready products to your deadlines.

Experience with us what experience can do.
